

Process for placing order sets in your favorites

- From the progress note click on the orange treatment tab.

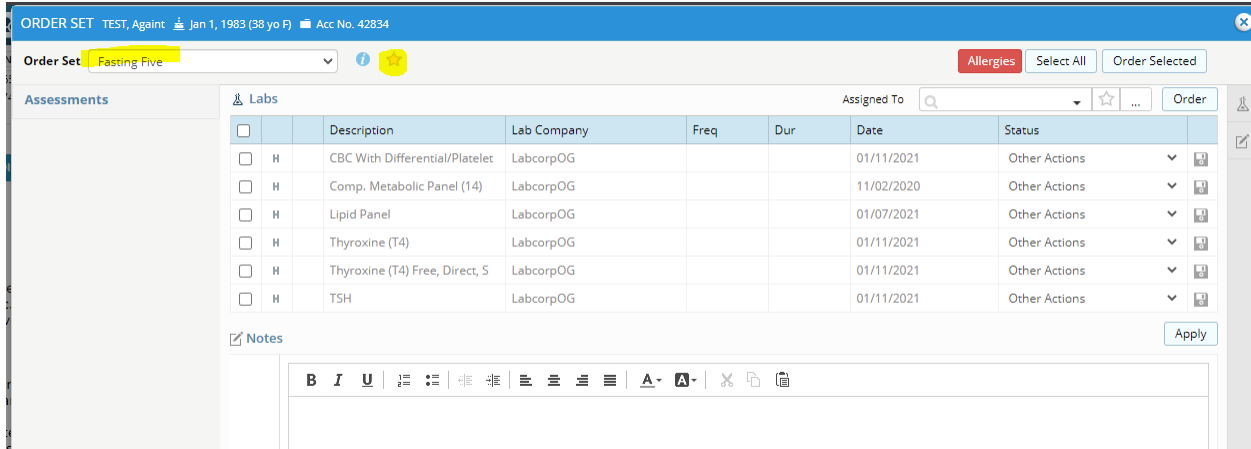

- Click on the OS circle on treatment window.

## How to Favorite Order Sets

- Look up the order set you want to favorite. Click on that order set. At the top of the screen push the star button to make a favorite.

- When back on the progress note you can click on Order Sets on the right (UpToDate) box. You will see your favorites. Click n the OS blue box to merge the order set over to progress note.
