

How to Pull & Read DRVS PVP Sheet

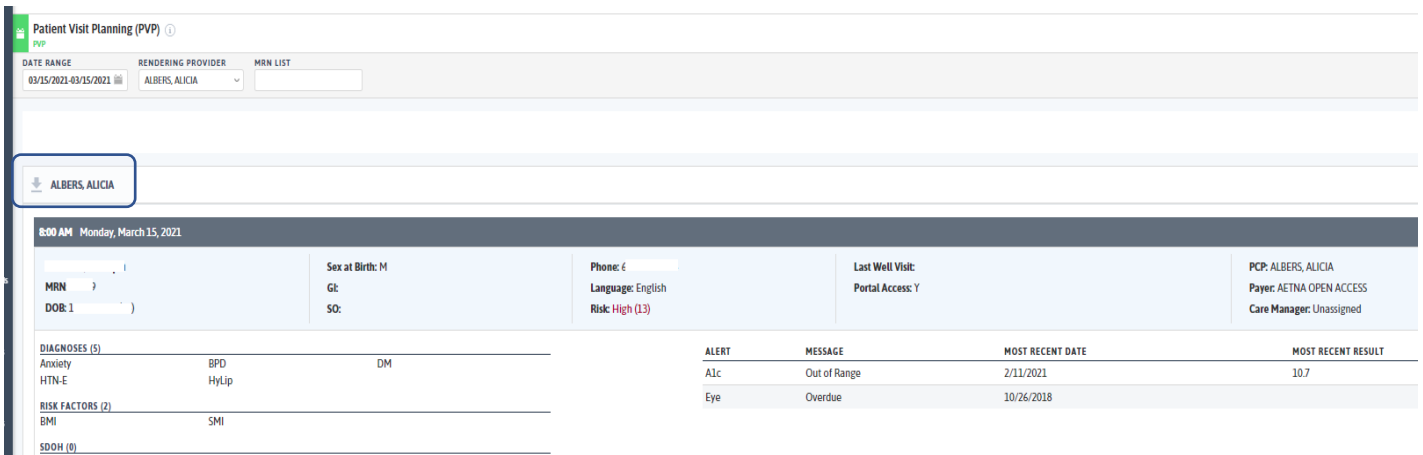

1. Log into DRVS <https://app.azarahealthcare.com/>
2. Select PVP from the left panel of options

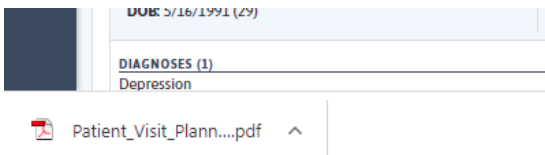

3. Enter the date range you are searching (it will default to current day)
4. Select the rendering provider (aka the provider seeing patients).
5. Select Update to see your results

6. Select the provider's name to see the patient list for the day or select the drop down arrow next to the provider's name to export a copy of the report.

7. Exported version will show on the bottom left corner for you to select & print

8. If a patient is missing or added on <24 hrs in advance, remove the provider & enter the chart number in the MRN field. Select update. You can then view or print a copy of their gaps.

Reading the PVP

All information is documented directly into eCW & pulls to the DRVS sheet. Nothing is documented directly into DRVS. This report does look at both eCW & IMS.
