Also, there are two active PDSA’s that were put into place. One PDSA is reaching out to patients that are due for a colon cancer screening. Staff are delivering a goodie bag that contains a roll of toilet paper and a FIT Test. What better time to capture these patients while they are in the comfort of their home! The second PDSA is reaching out to our uncontrolled hypertension patients. For those that have uncontrolled hypertension and need to be monitored more closely, staff are delivering blood pressure cuffs to their home.
