

Oral Health Self-Management Goal Documentation

1) Click on preventive medicine module located under the plan section of the progress note:

Plan:

Treatment: 

Diagnostic Imaging:

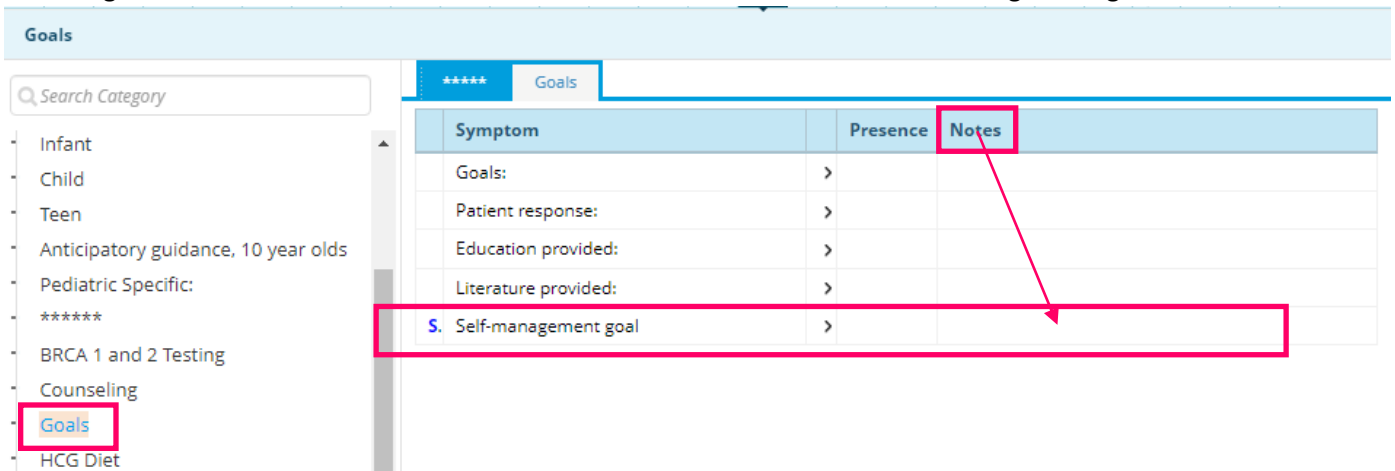

Lab Reports:

Procedure Orders:

Preventive Medicine: 

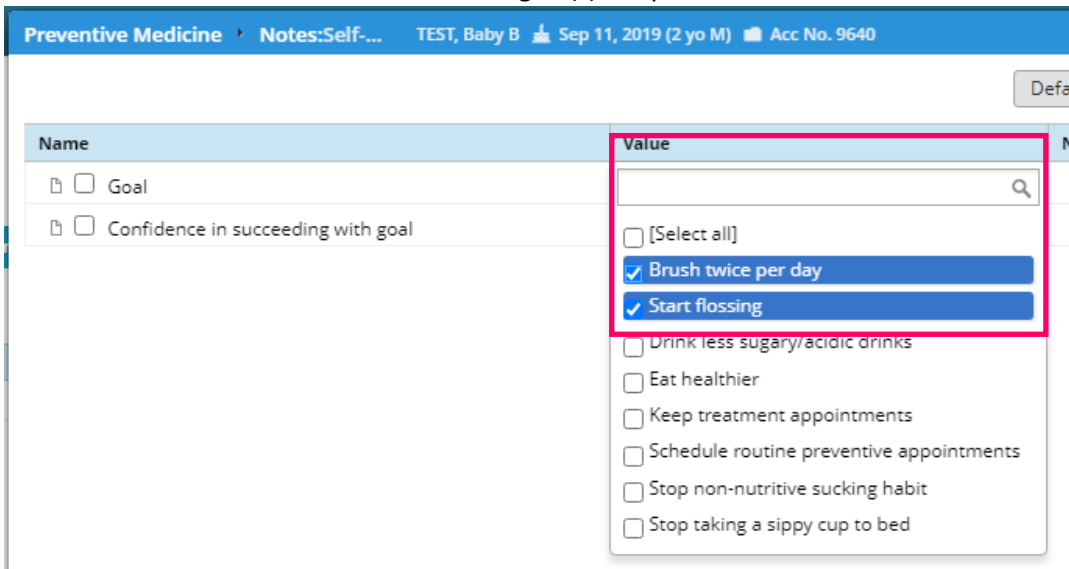

Next Appointment:  

2) Click on goals in the left column then click on the notes line next to dental self-management goal:

| Symptom | Presence | Notes |
|-------------------------|----------|-------|
| Goals: | > | |
| Patient response: | > | |
| Education provided: | > | |
| Literature provided: | > | |
| S. Self-management goal | > | |

3) Under the value headline select whichever goal(s) the patient wants to work on:

Preventive Medicine > Notes:Self-... TEST, Baby B Sep 11, 2019 (2 yo M) Acc No. 9640

| Name | Value |
|---|---|
| <input type="checkbox"/> Goal | <input type="checkbox"/> [Select all] |
| <input type="checkbox"/> Confidence in succeeding with goal | <input checked="" type="checkbox"/> Brush twice per day |
| | <input checked="" type="checkbox"/> Start flossing |
| | <input type="checkbox"/> Drink less sugary/acidic drinks |
| | <input type="checkbox"/> Eat healthier |
| | <input type="checkbox"/> Keep treatment appointments |
| | <input type="checkbox"/> Schedule routine preventive appointments |
| | <input type="checkbox"/> Stop non-nutritive sucking habit |
| | <input type="checkbox"/> Stop taking a sippy cup to bed |

Oral Health Self-Management Goal Documentation

4) Under the notes headline you can elaborate on the goal:

| Name | Value | Notes |
|------|----------------|---|
| Goal | Start flossing | Patient is currently brushing once per... |

5) You will then document the patient's confidence level in achieving their goal:

Struct Keywords TEST, Baby B Sep 11, 2019 (2 yo M) Acc No. 9640

Goal

Patient is currently brushing once per week but would like to increase it to three times per week.

| Name | Value | Notes |
|------------------------------------|--|---|
| Goal | Start flossing | Patient is currently brushing once per... |
| Confidence in succeeding with goal | <input checked="" type="radio"/> Really confident <input type="radio"/> Somewhat confident <input type="radio"/> Little or no confidence | |

6) After closing the goal window, your note will look like this:

Plan:

Treatment:

Diagnostic Imaging:

Lab Reports:

Procedure Orders:

Preventive Medicine:

Goals: Self-management goal Goal Start flossing Patient is currently brushing once per week but would like to increase it to three times per week., Confidence in succeeding with goal Really confident.
