

How- To Adding Outside Results

1. Documents Jellybean

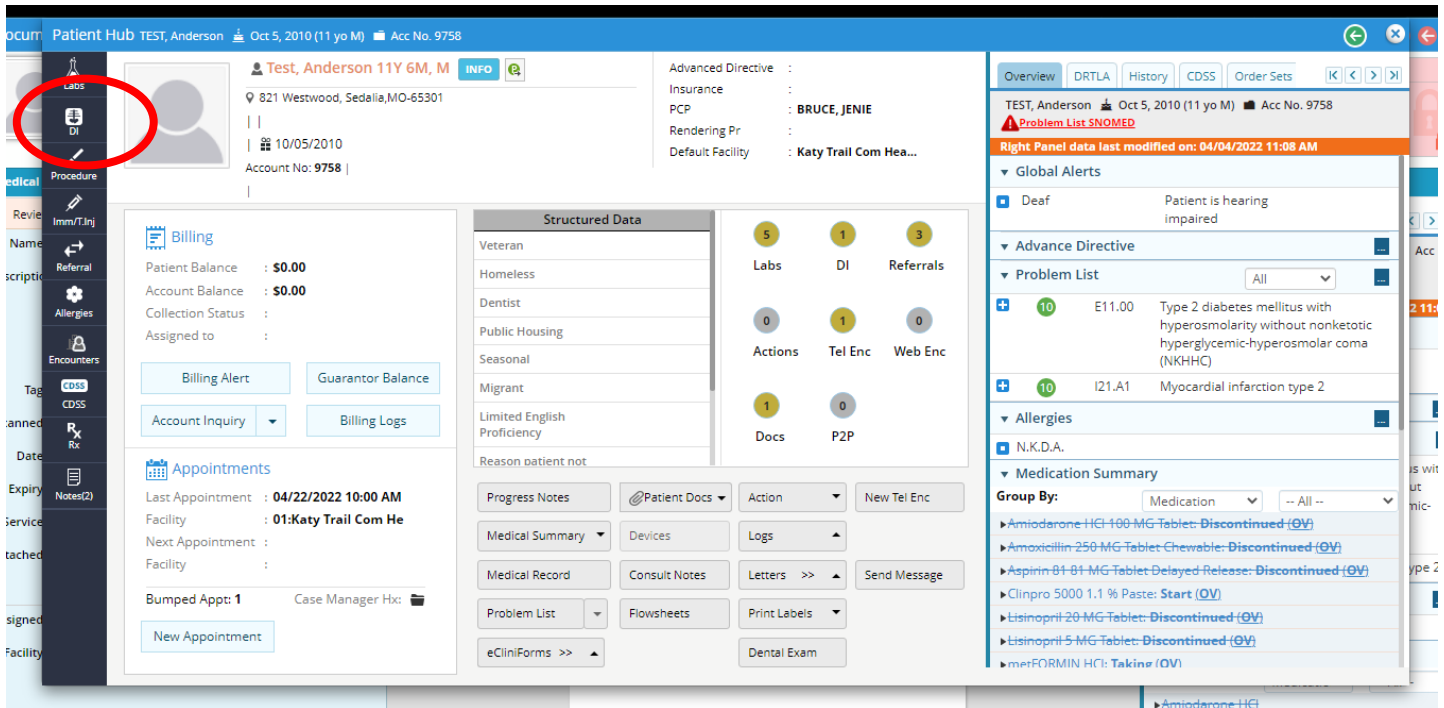

2. Open the document you are working with

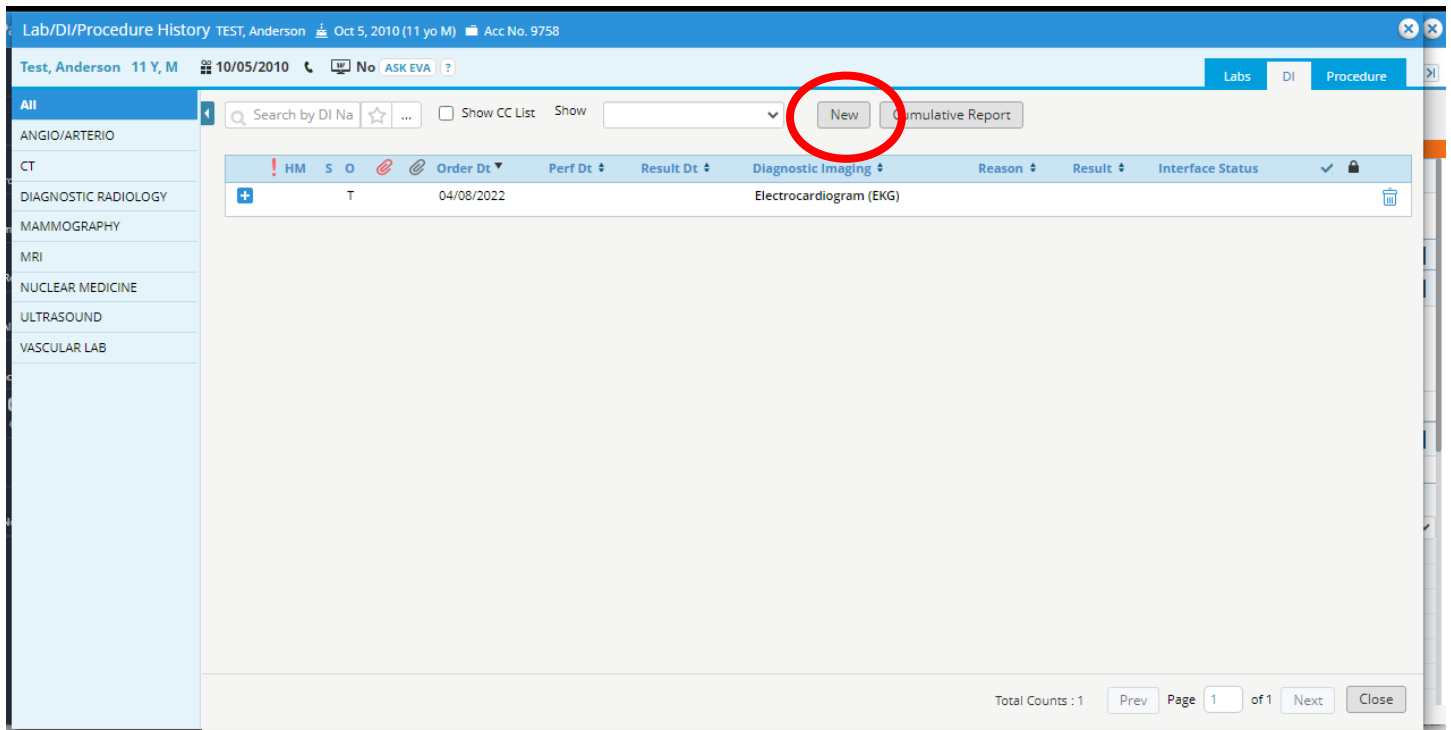

How- To Adding Outside Results

3. Open patients Hub and select DI on left panel

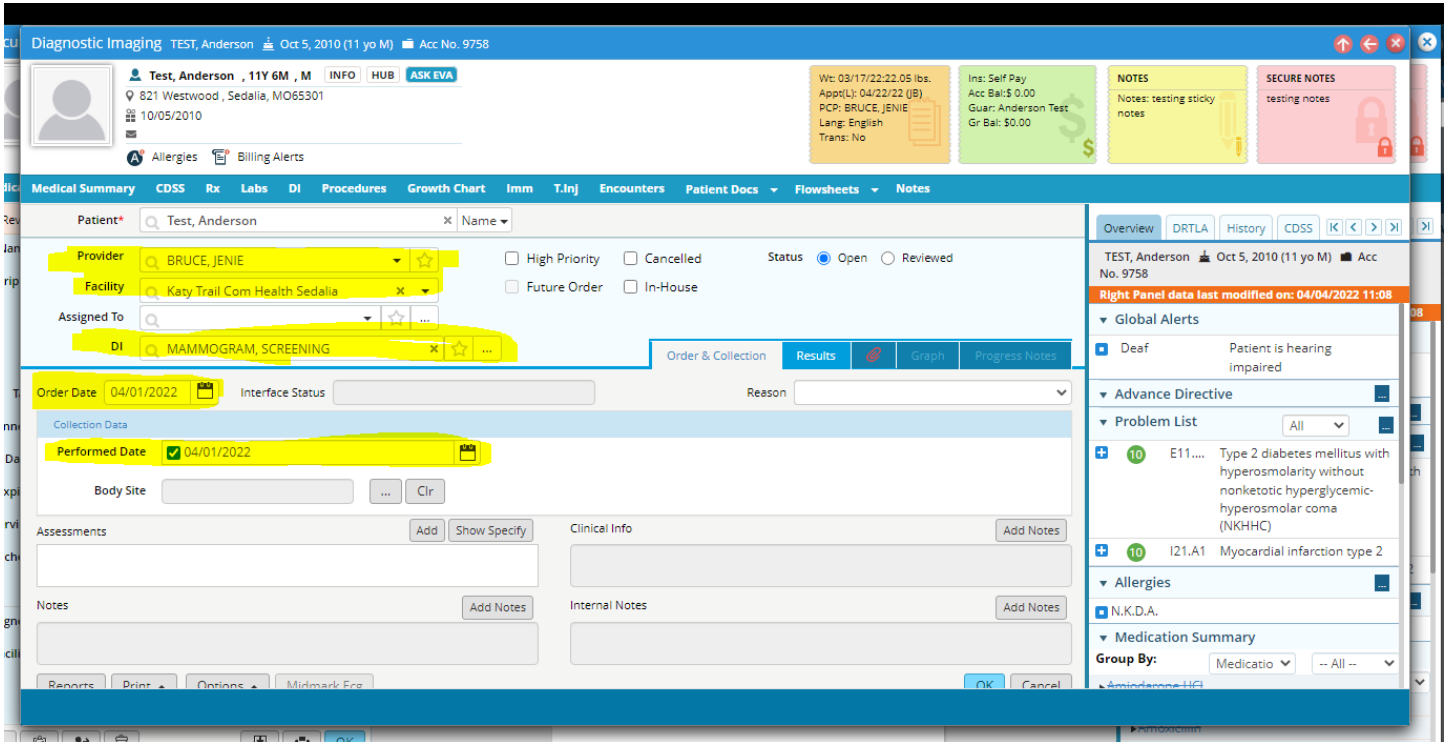

4. Then select "New" once the DI window has opened

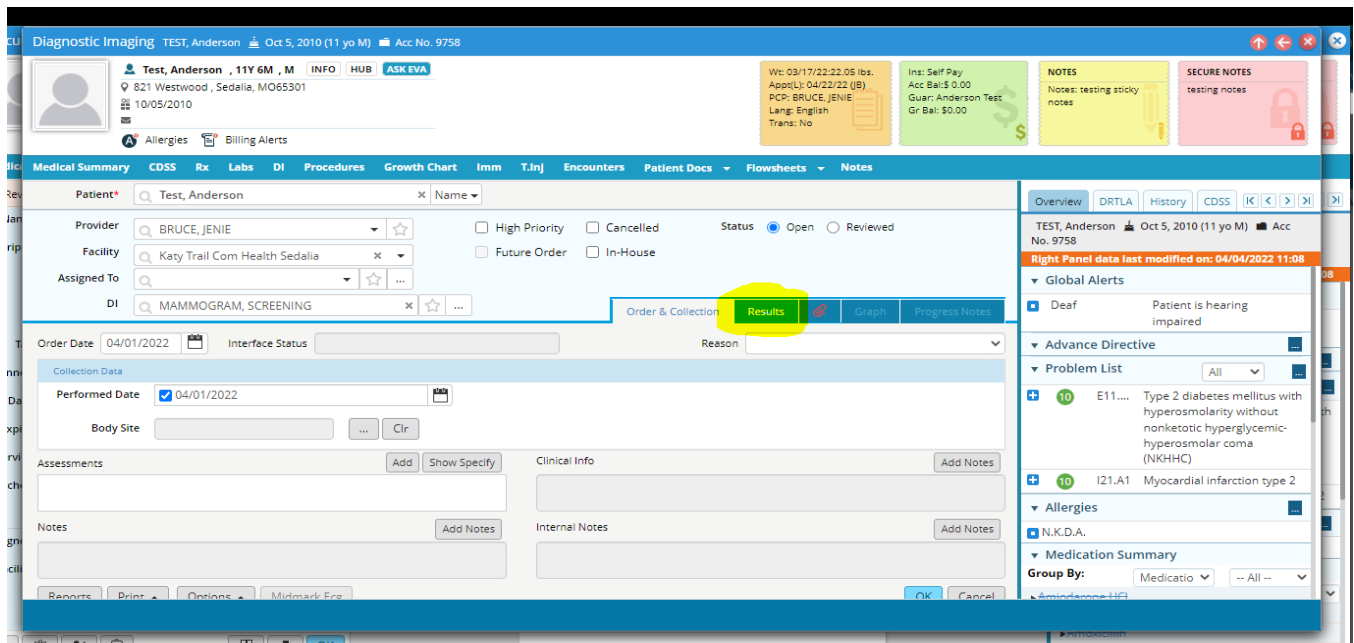

How- To Adding Outside Results

5. Once the new order pops open you will be sure to add the rightful information in the following fields
 - a. Provider (should default to PCP)
 - b. Facility
 - c. DI (what kind of test we are adding)
 - d. Order date
 - e. Performed date

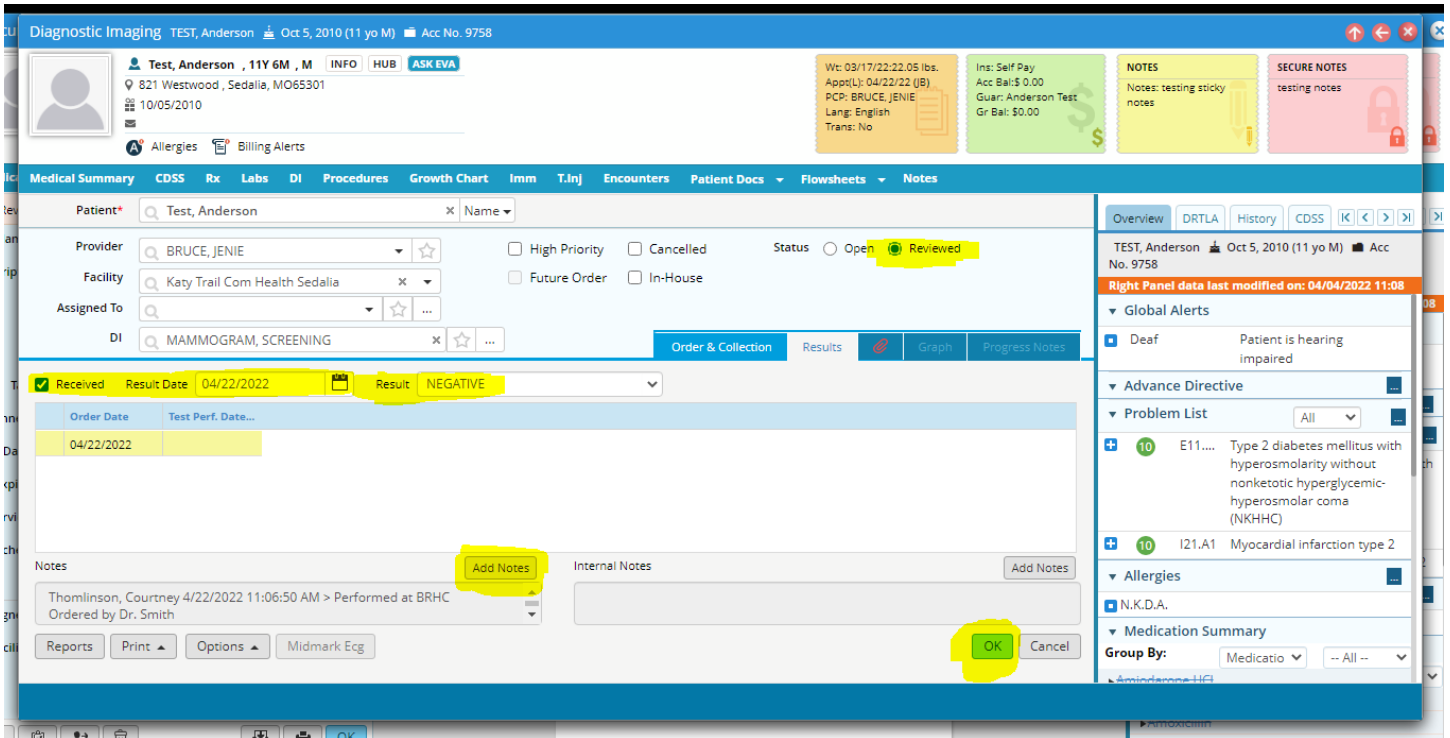

6. Then select the "Results" tab

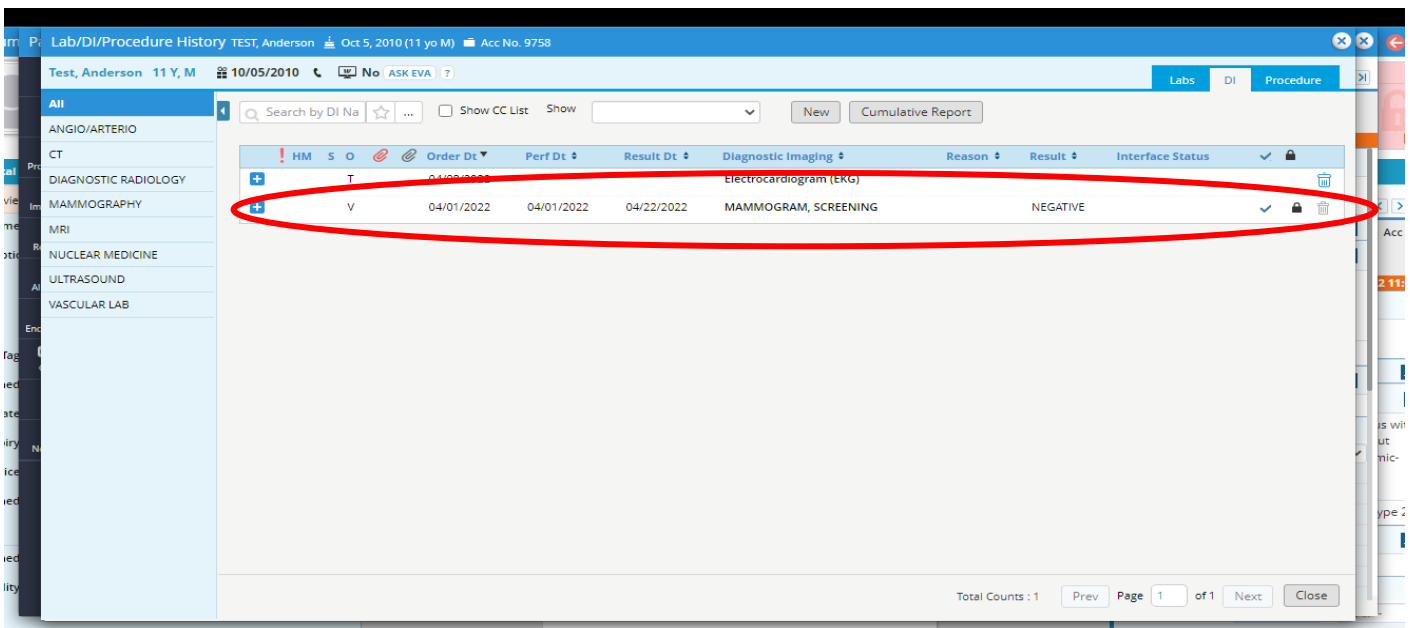

How- To Adding Outside Results

7. In the results tab you will do the following steps
 - a. Received
 - b. Result Date
 - c. Result (if resulting a lab, you would put the lab values in their rightful columns)
 - d. Notes (“Add Notes” update with Facility and Ordering provider)
 - e. Reviewed
 - f. “OK”

8. Once it is added it will appear as this in the DI window

How- To Adding Outside Results

9. You will want to attach the report to the order now. You will click the ellipse by the Attached field.
