

HOW TO- Document WHO refusal due to Positive SBIRT

Preventative Medicine > Counseling > Alcohol Use/Abuse Screening > Positive SBIRT

The screenshot shows a medical software interface for a patient named Courtney J. TEST, born July 2, 1950. The interface displays a table of screening questions with columns for Name, Value, and Notes. A dropdown menu is open for the 'Positive SBIRT' question, showing three options: '[Select all]', 'BH Warm Hand Off was completed', and 'BH Warm Hand Off was refused' (which is selected).

Name	Value	Notes
<input type="checkbox"/> Counseling for alcohol use/abuse		
<input type="checkbox"/> Daily estimated alcohol intake is		
<input type="checkbox"/> Positive CAGE questions included		
<input type="checkbox"/> Positive SBIRT		

Dropdown menu for Positive SBIRT:

- [Select all]
- BH Warm Hand Off was completed
- BH Warm Hand Off was refused
